

## 2021 Cloudpoint Year in Review

Another year has drawn to a close, and while it may not have run its course like we thought it would, our team is thankful once again for our continued success. Below are some of our most memorable highlights of the past year...[READ MORE](#)

## Cloudpoint Welcomes Marketing Coordinator, Sahara Schreiber.

2021 (like the previous year) brought plenty of projects, growth, and headaches for Cloudpoint. Notably was the ever-increasing scope and reach of the company... [READ MORE](#)

# Help for the Helpers: NG9-1-1 GIS Grants (Updated for FY2022)

So much goes into transitioning a 911 system to NG911, from changing state policies to buying appropriate equipment to updating GIS data. This upgrade comes with a hefty price tag...[READ MORE](#)

# Creating, Testing, and Publishing Route Networks for ArcGIS Indoors

When compared to traditional campus and facility management through CAD layers and multiple spreadsheets, ArcGIS Indoors offers a much more streamlined approach. Managing indoor assets through ArcGIS Indoors allows for improved facility maintenance, building operations, and indoor analysis across an entire campus thanks to ESRI's ArcGIS Indoors Information Model (AIIM). ..[READ MORE](#)
