## New Offering: Geospatial Assessment Progress Score

It's time to close the GAP. Introducing the Geospatial Assessment Progress Score (GAPS). The GAP score is a way for your organization to begin benchmarking its geospatial capabilities and creates a means to monitor and revisit the progress along the way. The GAPS scoring tool provides a score from 0 to 100 to evaluate how well your organization is doing with GIS...[READ MORE](#)

<b>Strategic Planning</b>	64%	Average

## Expert Alert! Hunter Ray Earns ArcGIS API For Python Specialty

Our very own Hunter Ray has recently earned the ArcGIS API for Python Specialty from Esri, making him one of only 77 certified experts. This specialty demonstrates Hunter's expertise in using the ArcGIS API for Python to solve real-world problems and improve spatial analysis workflows...[READ MORE](#)

## Spruce Up Your Survey123 Skills: Part 1

Survey123 Connect offers an array of ways to create powerful and customized forms for collecting data, but learning how to use some of the functionality can be intimidating. In an attempt to reduce the intimidation and spruce up your existing skills, we will review some of the functionality and how it works...[READ MORE](#)

## Staff News:

Top Left: Jon supported our local Girl Scouts by purchasing one box of each type of cookie for the office!

Top Right: The Cloudpoint team doing cleanup of our adopted highway in Roanoke, IL.

Bottom Left: Jon and Megan enjoying a trip to Palm Springs, CA for the Esri Partner Conference

Bottom Right: Bill and Daniel ready to talk NG9-1-1 at the Missouri Public Safety Communications Conference.
